2. PhilHealth Configuration

PhilHealth uses a percentage calculation rather than 500-peso brackets:

- **Calculation Type:** Percentage
- **Rate: 5.0%** of monthly basic salary (split equally: **2.5% Employee**, **2.5% Employer**)
- **Income Floor:** ₱10,000.00 (Minimum deduction: ₱250.00 EE / ₱250.00 ER)

- **Income Ceiling (Cap):** ₱100,000.00 (Maximum deduction: ₱2,500.00 EE / ₱2,500.00 ER)

3. Pag-IBIG (HDMF) Configuration

Pag-IBIG uses a fixed cap based on the Maximum Fund Salary:

- **Calculation Type:** Fixed / Percentage with Cap
- **Rate: 2% Employee**, **2% Employer**
- **Maximum Fund Salary (Cap):** ₱10,000.00
- **Deduction Amounts:**
  - **Employee Share: ₱200.00** (fixed cap)
  - **Employer Share: ₱200.00** (fixed cap)
  - *Total remittance: ₱400.00/month.*

4. BIR Withholding Tax (TRAIN Law Monthly Schedule)

If your system is also setting up tax brackets, taxable income (Gross Pay minus SSS, PhilHealth, Pag-IBIG, and non-taxable allowances) is computed using:

Monthly Taxable Income Bracket	Withholding Tax Computation
₱0 – ₱20,833.00	₱0.00 (Tax-exempt)
₱20,833.01 – ₱33,333.00	15% of excess over ₱20,833
₱33,333.01 – ₱66,667.00	₱1,875.00 + 20% of excess over ₱33,333
₱66,667.01 – ₱166,667.00	₱8,541.80 + 25% of excess over ₱66,667
₱166,667.01 – ₱666,667.00	₱33,541.80 + 30% of excess over ₱166,667
Over ₱666,667.00	₱183,541.80 + 35% of excess over ₱666,667
